**ROCKWOOD MAN
CONFESSES TO
BRUTAL MURDER****After Assaulting Mrs. Eva
Kelly, Lloyd Mathias Choked
Her to Death.****THEN CUT HER THROAT****Details Revealed in Confession Made
at Hearing Before Justice of the
Peace; First Story of Crime
Indicated Mrs. Kelly Had Suffered**

ROCKWOOD, Dec. 19.—When arranged before Justice P. E. Welmer of Rockwood, on Saturday, on a charge of murder, Lloyd Mathias, who, it is alleged, killed Mrs. Eva Herschberger Kelly, aged 26 years, wife of John Kelly, of Main street, Rockwood, at her home last Thursday morning, made a written confession of the crime and the confession is now in the hands of County Detective M. R. Leckman.

Mathias said that the night previous to the crime he had returned home in a drunken condition and that his recollection of what transpired was hazy. However, he told the officers that early on the morning of last Thursday when Mrs. Kelly arose to prepare his breakfast, he assaulted her and meeting resistance choked her to death his description of the crime being of a brutal nature.

Following upon a couch, Mrs. Kelly struck Mathias with her fist. Kelly, who one hand clasped about the woman's throat, held the other hand over her mouth and nose until life was extinct.

In the struggle, Mrs. Kelly's clothing was partially torn off. Mathias said he rearranged the clothing, after carrying the body into the kitchen of the Kelly home, cut the woman's throat with a butcher knife, then went out to summon help, knowing Mrs. Kelly had committed suicide. The prisoner's story sounded so plausible that a coroner's jury rendered a verdict to the effect that the victim came to her death at her own hands. Later examination of the body developed that Mrs. Kelly's death was due to strangulation, bearing out the confession.

The Michigan member said some of the charges he might present would be of unimpeachable character and that he could form a definite opinion until he had examined certain documents at the Department of Justice.

**MAKING UP 1923
BUDGET BIG TASK
FOR CITY FATHERS****They Slash \$18,000 From Estimates and Are Still Above Revenues.****SALARIES TO BE RAISED**

Police and Firemen to Benefit Unless Further Cuts at Meeting Tonight Eliminate Increases; Fire Truck Purchase Plan Abandoned.

Members of City Council spent several hours Monday night in an endeavor to cut estimates for the 1923 budget to the level of estimated revenues for the year but did not succeed. Another meeting will be held tonight to complete, if possible, the budgeting process.

Estimated revenues for the coming year are approximately \$100,000. This figure embraces the following: Taxes, \$78,000; license tax, \$8,700; transient tax, \$300; pole inspection, \$623; interest, \$800; and \$10,000 from the police department in fines. The last named is uncertain. At the rate in recent months it would be much larger, but it is impossible to tell when this income might drop.

Cuts made in the department of public affairs and public safety did not include the salaries of members of the police and fire departments. Recommendations for increases stand, while provision also is made for a larger police force.

Mayor Mitchell's final estimate cut \$7,320, was \$25,000, which is an increase of \$6,000 over last year. This would provide for 10 patrolmen and the chief and assistant chief, at salaries of \$135 for the patrolmen, \$150 for the assistant chief and \$175 for the chief. The patrolmen are now paid \$120.

Councilman J. A. Cypher struck from his estimate \$11,000. This included \$8,700 for a new fire truck which the head of the department told Council is very much needed, the old one having been in use 11 years. An addition to the fire station also was eliminated. Salaries of the firemen will, under the budget figures, be the same as for the policemen.

Little change was made in the estimates for the other departments which were but slightly above or below the estimates of last year.

Final action was held over in the matter of appropriation for the Carnegie Free Library. At a previous meeting it had been proposed that a mill be levied for the library. In the estimates of Councilman James Wardley for his department only \$5,000 was specified. This may be increased.

As matters stand at the close of the discussion the estimates total \$117,000, a reduction of \$18,370 from those originally submitted.

**Mercury at 11
Degrees; Winter

The maximum yesterday was only 29 degrees, three points under freezing, and in the early evening the mercury began to fall again. At 11 o'clock last night the thermometer morning high, continuing its drop. The previous low mark of the winter was 14 degrees, about a week ago. At noon today, with the sun attempting to break through the haze, the mercury only stood at 24 degrees and it seemed that another day would pass without the freezing point being topped.

"Fair and warmer tonight" was the prediction and it also indicated that tomorrow would follow with continued warmth.

Winter will be officially ushered in at 5:57 Friday morning.

IMAGES REVERSED ON RETINA

Experiments Have Shown That Habit and Experience Counteract Effect of the Inversion.

The lenses of the eye produce on the retina an inverted image of objects looked at, and the question is often asked, "Why do things appear right-side up when their images are upside-down?"

It occurred to one investigator to try the effect of preventing the inversion of images on the retina. This was accomplished by means of an optical instrument that excluded from the eyes all light except that which passed through the instrument itself. The instrument was adjusted so the eyes at 8 o'clock one afternoon and was not removed (except at night, when the eyes were bandaged) until noon the next day. At first the person whose eyes were thus treated, everything seemed topsy-turvy and illogical, and the mind instinctively tried to imagine objects to be in the position in which they ordinarily appear. After a time, however, the feeling of the unreality of what was seen passed away and the person experienced everything that lay outside his field of vision to be arranged in the same way as what he saw. This goes to show that habit and experience counteract the effect of the inversion of images in the eyes.—Washington Star.

"Siamese Twins" of Tree World.
What may be called the "Siamese Twins" of the tree world is found on an island formed by two branches of the Mississippi river at Rock Island, Ill. The island, which is occupied by an arsenal of the United States government, embraces some 200 acres of luxuriant forest, comprising many varieties of trees, and almost in the center of it is the twin tree, an oak and an elm, the trunks of which, having grown close together many years ago, appear to be merged into a single bole to a height of five or six feet.

At this height the trunks are entirely separated, each bearing its own peculiar bark formation and foliage. The twin has been estimated to be a hundred years old.

Buckingham Palace Disturbed.
LONDON, Dec. 19.—A disturbing discovery was made at the rear of Buckingham Palace today when a grenade bomb was found in an ash cart which had just arrived to remove the palace refuse. How the missile got into the cart is a mystery and the police are making a thorough examination to see if the charge had been removed.

Land of Thanks.
To the many friends and kind neighbors who donated flowers and gifts in any way to lighten the burden of our sorrow at the time of the death and funeral of our son, Russell Junior, we wish to express our sincere appreciation for the kindness and sympathy extended to us. MISS KATHERINE E. WALTON.
Miss Katherine Elizabeth Walton, 52 years old, died 18 days old, one of the most widely known ladies in Conneltsville, died Monday afternoon at the home of her sister, Mrs. John Duggan, at the Columbia Hotel, West Side. Her death was not unexpected. A year ago last October she suffered an illness from which she never fully recovered. For the past six weeks she had been confined to her bed and was unconscious for more than a week preceding her death. Miss Walton was born in Cumberland, a daughter of the late Joseph and Elizabeth Martin Walton. Her childhood days were spent in various parts of Maryland and since coming to Conneltsville she made her home with her sister, Mrs. Duggan. Miss Walton was a clerk for about 29 years in leading stores of Conneltsville and during that time she formed a wide acquaintance in Conneltsville and out of town points. For a number of years she was employed by I. C. Smith who conducted a general merchandise store in the West Side, and was later in the employ of Miss Florence Sautz, who operated a similar store in the West Side. Other firms by whom she was employed were the Wright-Metzler Company, D. K. Artman and the Bazaar Department Store. She was a member of the Immaculate Conception Church, the Young Ladies' Society, the Catholic Daughters of America and the Ladies' Auxiliary to the Ancient Order of Hibernians and was esteemed and respected by all who knew her. In addition to Mrs. Duggan she is survived by one sister, Mrs. Ida Kephart of Merion, wife of Deputy State Treasurer H. M. Kephart, and two brothers, Herbert and Lawrence Walton, both of Conneltsville.

The funeral will be held Thursday morning at 8:30 o'clock at the Duggan home, followed by requiem high mass at 9 o'clock in the Immaculate Conception Church. The interment will be made in St. Joseph's Cemetery. The Catholic Daughters of America will meet tonight at 7:45

o'clock at the Duggan home to hold service.

Benjamin Bungard, 71 years old, died Sunday night about 11 o'clock at the home of Cleveland Bungard, a relative at Indian Head. Mr. Bungard had spent virtually all his life at Indian Head and with his brother, David, resided in the old homestead. Last Tuesday he was stricken with apoplexy and was removed to the home of Cleveland Bungard. He was employed on a farm for a number of years. He never married and in addition to his brother, David, is survived by a brother, George, located in California State.

The funeral will be held from the house Wednesday morning at 10 o'clock, followed by services at 10:30 o'clock at the Indian Head Lutheran Church. Rev. R. N. Dillon, pastor of the Church of God at Indian Head, will officiate. The interment will be made in the church cemetery.

Tully, who died Sunday morning at the Cottage State Hospital from injuries suffered Saturday night when run down by an automobile, was celebrated this morning at 9 o'clock at the Immaculate Conception Church by Rev. Father Henry Geibel, the church pastor. Many relatives and friends were in attendance. Pallbearers were Dr. J. V. O'Donovan, Dennis Mahoney, John Farrell, Peter Sweeney, William Dolan and Thomas Kearns. The interment was made in St. Joseph's Cemetery.

CHRISTIAN DEFFENBAUGH.
Christian Deffenbaugh, 84 years old, life-long resident of Leetown, died suddenly Monday morning at his home. He had gone to the barnyard about 8 o'clock to feed his stock and his means attracted the attention of a neighbor, Mrs. Zoe Johnson, who found him in a dying condition. He expired shortly after being removed to the home. Homer Deffenbaugh of Scotland is among the surviving children.

The funeral service will be held Wednesday afternoon at 1:30 o'clock in the Mennonite Church followed by interment in the church cemetery.

MRS. SARAH A. COUNTRYMAN.
SOMERSET, Dec. 19.—Mrs. Sarah A. Countryman, 65 years old, wife of Edward Countryman, of Javansville, three miles west of Somerset, died at 9:45 o'clock Sunday morning at the Community Hospital. Her death was due to apoplexy.

SEVEN AES OF MAN

**When Is the De Line Reached In
Human Life?**
Human vitality runs to waste at 40, which is about the age of life. People around the age 40 are dropping out of life because they neglect to keep the human spark in full flame.

Infirmitie and disease are mainly caused by constipation. New people realize how fatal to health are the waste poisons which clog the intestines and bowels. People's middle life are easy victims of cold, grippe, and pneumonia.

Health, the most precious part of life, should be carefully watched by everyone. Millions of people pay a heavy price for neglecting their system regulated by natural human health.

To break up and colds a cup of Bulgarian Herb Tea taken right at time gives splendid results. Its gative qualities aid nature to have constipation, indigestion, biliousness, stomach and bowel troubles.

Just make up your mind to keep well and strong by using this pure medicinal tea at least once each week. Your watch your health improve. You will never want to be without it. See your druggist today. He can honestly recommend Bulgarian Herb Tea.—Advertisement.

TUESDAY EVENING, DEC. 10, 1922

DANGER POINTS ON THE HIGHWAYS.

The necessity for the construction of a walk along the highway through the village of Brookvale has been considered frequently, but unfortunately it has never been advanced beyond that stage. The untimely death of M. J. Tully, one of Dunbar township's very worthy and useful citizens, due directly to the absence of a sidewalk, ought to stimulate action that will result in such a provision for the safety of pedestrians being made.

With the street railway taking up one side of the roadway, the space remaining is altogether too narrow to be used both as a roadway for motor vehicles and for foot passengers. In the absence of any other provision the people living in Brookvale and vicinity have no choice except to use the roadway. That more accidents have not resulted from this practice is due more to the precautions taken by the pedestrians than to the care exercised by many automobile drivers. Being fairly good running ground, a mass of drivers yield to the temptation to drive recklessly, their machines notwithstanding the presence of so many houses would ordinarily cause prudent and careful motorists to keep their machines under control while negotiating this stretch of road.

From all that can be ascertained of the circumstances of the death of Mr. Tully, some driver was passing over the road at such speed that when his machine struck him he was dealt a blow of such force as produce injuries which resulted in death within a few hours.

It is safe to say that if Mr. Tully had not been at the particular place in the road at the time he would not have been killed. The same thing can be said of every accident. It would be more to the point to say that had the facility of a sidewalk been provided for the use of pedestrians, the distressing fatality would not have occurred. It would be equally pertinent to observe that had the driver of the automobile been as careful as he should have been the accident would have been avoided. That he rushed on after striking Mr. Tully without offering to render any assistance to the injured man or making himself known to a single person in the vicinity, shows the driver to have been one of the number who should be denied all privileges on the highway of the state and given a long-term of imprisonment as well.

Automobilists are presumed to realize that it is not possible to remove all the dangerous sections of the highways within a short space of time. Having this knowledge they should have the good sense to be on the alert when approaching danger points in order to reduce the peril to both themselves and to others.

The first surgical operation on the municipal budget was fairly successful considering no amendment was applied. No doubt the patient will be able to undergo a second, without serious impairment of strength.

There ought to be some new penalties provided, and indicted, upon heartless drivers of automobiles who, after knocking citizens senseless, "step on the gas" and get away from the vicinity as fast as their machines can carry them.

The Country Circus was staged at the right time to give encouragement to City Council in applying the knife to the budget.

With the best streets of any town of its size in the country Connellville ought to make excellent headway on the highway of progress.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results.
Takes but a moment to prepare,
and saves you about \$2.
You know that pine is used in nearly
all prescriptions and remedies for coughs.
The reason is that pine contains several
peculiar elements that have a remark-
able effect in soothing and healing the
membrane of the throat and chest. Pine
is famous for this purpose.

Pine-cough syrups are combinations
of pine and syrup. The "syrup" part
is usually plain sugar syrup.
To make the best pine cough remedy
that money can buy, put 2½ ounces of
"Pine" in a pint bottle, and fill up
with the homemade sugar syrup. Or you
can use clarified molasses, honey, or corn
syrup instead of sugar syrup. Either
way, you will produce a full pint more than
you can buy ready-made for three times
the money. It is pure, good and very
pleasant—children take it gladly.

You can feel this take hold of a cough
or cold in a way that means business.
The cough may be dry, hoarse and tight,
or may be persistently loose from the
formation of phlegm. The cause is the
inflammation of the membrane and this
Pine and Syrup combination will stop
it usually in 24 hours or less. Splendid
remedy for bronchitis, asthma, hoarseness,
any ordinary throat ailment.

Pine is a highly concentrated com-
pound of essential Norway pine extract
and is famous the world over for its
prompt effect upon coughs.

Beware of substitutes. Ask your
druggist for "2½ ounces of Pine" with
directions, and don't accept anything
else. Guaranteed to give absolute satis-
faction or money refunded. The Pine,
Co., Ft. Wayne, Ind.

Dog Licenses Paid \$278,000 Net to State

HARRISBURG, Dec. 19.—The dog
licenses collected during the fiscal
year closed November 30 netted the
state \$278,000, that amount having re-
mained after paying \$50,000 in claims
for killing or injury of sheep and
poultry by dogs, enforcement of law,
furnishing tags and other supplies.

Westmoreland county stood first in
amount of money received for
licenses, having turned in \$19,754 to
the State Department of Agriculture,
which administers the new law. In
Fayette county \$10,529 was collected
from dog owners, Somerset county
collected \$7,427; Greene county,
\$6,179.

Speaks Highly of This Home Made Cough Remedy

Says It Acts With Unusual Speed—
Loosens the Mucus—Relieves the
Inflammation and Stops the Cough.

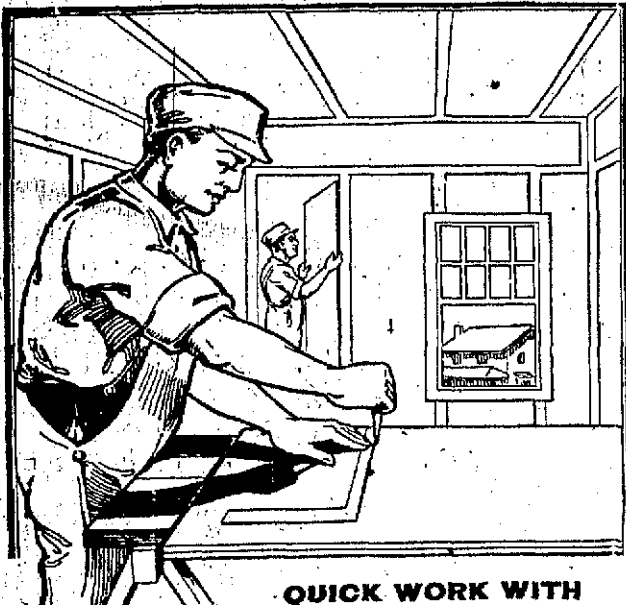

Cost, Next to Nothing—For a Big
Soothing.

Whenever anyone in my family
catches cold and begins to cough and
hoarse, and have a heavy, heavy
cough, I take me many minutes to do
a remedy that will drive away all
such troubles in double quick time.
It's no secret—anyone can make a
half pint of the finest cough medicine
in the world for a trifling sum.
Get from any druggist one ounce of
Painit (double strength)—to this add
a little granulated sugar, and enough
water to make one half pint—that's all
there is to it.

Now you've got a real medicine—
and you'll find it so useful you take
it directly on the membrane of the
throat and nose, the tickling ceases al-
most instantly—the inflammation be-
gins to disappear—the cough—the stub-
born mucus and often in 24 hours every-
thing is gone.
It's really remarkable how this home
made remedy acts on the mucous mem-
brane, and that is one reason there is no
cure to thousands of Coughs suffer-
ers advertisement.

At a loss.
Do you suppose Charley Sapietich
had an idea in his life?
He may have had one, at some time
other," said Miss Peacher, "but I
believe very seriously if he knew what
he was with it."—Birmingham Age-
Herald.

Not Ready to Die.
"Poor salesman, you say?"
He doesn't know the psychology of
it. He'd try to sell a cen-
t to a man who had been poor
all his life and had just inherited a
million."—Birmingham Age-Herald.

MOTHERS AND THEIR CHILDREN

R. S. Y. P.

After some person had done a kindness to my son, he always writes a little thank-you note. He greatly enjoys this and is forming the habit of saying "thank-you" by letter—a habit that is none too common among grown-ups.

LINES OF DRESS

Straight Modes Promise to Hold
Milady's Favor.

Well at Waist Instead of Girdle—
Gown Should Express the
Rhythm of Motion.

To those of us who find no interest in statistics, it will come as a distinct revelation that more than half of the women of this country make their clothes at home, declares Harry Collins in the Modern Priscilla.

Take it from any viewpoint you will—from the social, the economic, or the artistic—the home dressmaker is a potential artist. If you will place in her hands not only a pair of scissors and a good pattern, but also a set of working artistic principles concerning line and detail, which principles are themselves but instruments and tools. She must apply her scissors to the pattern, as the artist his instrument to his material.

The outline of the silhouette of the dress has changed but slightly in the fall of 1922. The skirts are longer and a little fuller. Their fullness, though, is disguised either by gathers on each side of the skirt, or by fullness created by means of a straight drape on one side. But the straight line, which has become almost canonical in American clothes, will go right on, with the addition, however, of a belt at the waistline. Instead of the giraffe that has been hanging carelessly anywhere from the waistline to the hips—because there is a tendency to define the natural waistline in our clothes.

Although there may be a tendency on the part of the prophets of fashion to revive the style of the 1830 period, which has a tight bodice and a full skirt, it is absolutely poor taste to follow it unless one's figure is very slim, or one is a very young girl. The lines of dress for which, either modestly or immodestly, we stand sponsor and creator, should never fit closely to the figure. In other words, the lines of the dress should always be soft and subtle—never rigid. That is

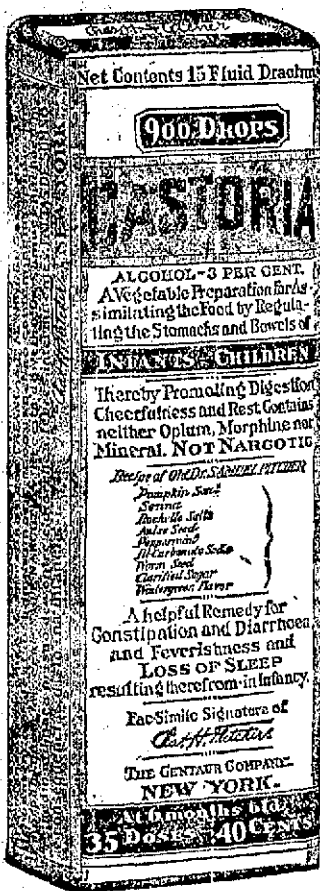

Straight Tailored Lines Shown in
This Navy Duveline.

all right for a sculptured figure, but a woman's dress should express the rhythm of motion—it should never convey the impression of a rigid figure.

As to clothes for the street, dark shades are always in good taste. Brown in the numerous tobacco tones, will be very much in evidence. Warm China blues and blue-greens will also be fashionable colors.

For the afternoon or evening dress you may follow your own dictates, as far as color is concerned. But for street frocks, unless one has an unlimited wardrobe, the dictum is dark, warm shades.

U. S. Death Rate from Cancer Goes up 25 per cent in 20 Years

CANCER is gradually increasing throughout the United States. This fact is shown by figures compiled by the Phoenix Mutual Life Insurance Company from official and private sources.

The number of deaths from cancer and other malignant tumors has risen from about 60 in every 100,000 of population to nearly 90 in recent years for the same number of population. In the Northern States the rate has been heavy, while in the South the disease appears to have been less prevalent. This fact, however, is not based on a racial difference, for both white

and colored persons seem equally susceptible.

Certain authorities in the medical profession insist that the increase has been apparent rather than real. They claim that improved methods in diagnosis have made it possible in recent years to describe deaths to cancer which a generation ago would have been ascribed to other causes. Opponents of this theory point to the recorded increase of cancer of the skin and mouth, where accurate diagnosis would have been made as readily 20 years ago as it is today.

IN WEARING SPORT CLOTHES

Demand for Garments for Outdoor Use; Women Devote More Time to the Country.

In the past few years, since women have become interested in all sorts of styles which were once more or less of a closed issue with them, the designing of clothes for sports wear has filled an ever-increasing field.

Since sports and outdoor life have claimed our smartest women, then, the clothes which go with them have had to keep pace in chic and cleverness.

The chic woman realizes that the country club garment is in its proper element only at the country club or country home; that there is a proper place for the afternoon gown, and that

it is not in its proper place when worn on a shopping expedition.

She understands the fitness of things. This is something that many of our less clever women have yet to learn.

At the same time, the young girl who overdoes the tweed suit, wool hose and sensible shoes is much stronger physically than she was several years ago when she affected sheer blouses, French heels and frivolous, inappropriate things for everyday.

LIKED POMP AND CEREMONY

Early Settlers of America Were by No Means Deeply Imbued With Democratic Ideas.

When the early American settlers came to the American wilderness they brought with them a persistent respect for the pomp and the vanities of feudalism with its distinction of classes and its conventions of respectful observance. They showed a curious lack of a saving sense of humor. When the first settlement at Jamestown was starving Sir Thomas Gates, on relinquishing his authority, fired a salute from the fort, and made his departure like a king abandoning his realm. De la Warr, arriving a few days later, landed with a flourish of trumpets and a procession, with banners borne before him. When he went to church he was attended by an escort in red cloaks and a guard of 50 men, although there were not more than 200 in the colony.

When the Puritans, a people who were supposed to have laid aside the pomp and vanities, went to church, they were summoned to Captain Standish's door by the roll of a drum. Each man wore a cloak and carried a musket on his shoulder. They fell in three abreast, led by a sergeant, and behind this escort strode Elder Brewster with Captain Standish strutting stiffly at his side, with a sword in scabbard and bearing a cane or wand as an emblem of his authority.

THE BOY THAT FAILED

FATHER had planned a brilliant future for him. Mother's high hopes for his success were supported ably by her everlasting faith in him.

But the boy was a bitter disappointment. He was being outdistanced steadily by his schoolmates, was dull, listless all the time, "felt sick" most of the time, never had "pop" for play nor ambition for his future.

Father had about given him up. Poor mother's heartstrings were nearing the breaking point. Evidently, it was not to be.

Then an old friend of the family—a man successful in every sense—came to the boy's rescue. Today, the father is proud of the boy who is indeed a joy to his mother.

It was simply a case of poor digestion, sluggish liver and constipation gradually dulling the senses and poisoning the system.

Knowing from experience that Beecham's Pills were harmless as well as efficient, the old friend suggested them. They made the boy well—as they have hosts of other children, and grown-ups, too, who suffered from like disorders.

These units or sections are 28 inches deep from front to back and 52½ inches high without legs, or 57 inches high with legs—furnished either way.

The "2000" line, like all Globe-Wernicke Sectional Cabinets, is fitted with filing devices of all kinds, drawers, cupboards, roller shelves, etc. Made in quartered oak, birch, mahogany and elm, walnut.

The "2000" line is a good one to standardize on—economical, efficient, handsome. Let us suggest an outfit for your office.

OPENING BOXING
EXHIBITION OF
SEASON STAGED

Braving the biting weather a fair-sized crowd of boxing fans gathered at Slavish Hall, West Side, last night for the season's opening exhibition under the auspices of the Fayette Athletic Club.

They who came to see a decisive victory in the main bout between Freddy Elix of McKeesport and Billy Carter, Connelleville colored fighter, went away disappointed. While the referee's decision favored the victor, in the mind of the average fan the affair was a draw.

The bout, as a whole was rather tame. There was too much in-fighting. The fight went 10 rounds.

Young Mulligan of Pittsburgh shadowed Eddie Borland of McKeesport in the semi-final. The fight put up by Young Hanlon of Trotter and Young Pasquale of Dunbar was a fast one, with the honors about even. The remaining bout was between Young Bleckee and Kid Boyd and it too was not rapid-fire order.

The Uniontown Eagles better than ever before, are in the basketball fold again this season and are anxious for games at home and abroad. The Eagles are desirous of hearing from such teams as the Baltimore & Ohio Y. M. C. & Juniors, the Solomon Five and other fast lightweight teams in this region. For games write to G. Phil Bradley, manager, W. Highland Avenue, Uniontown, Pa.

High School's basketball team will take a rest this week and during the next period of vacation will have light workouts in the gymnasium. Games are scheduled for December 29 and 30 and for January 1.

The City League will begin to function within a short time. President Strubel will likely call a meeting for this week. With the independent football season ended the fans are ready to give their full attention to the floor sport.

LOS SHERMEN BECAUSE OF DUAL RESCUE IN 1884

Detroit Man Installs Radio Sta- tions as Latest Benefit to Isolated Colonies.

Rescue of himself and son by a coast guard crew after his yacht had been splintered on a reef, started W. H. Law of Detroit on a mission that has touched barren lives in more than a score of places along the Great Lakes. Thirty-eight years ago, the day yacht "Diana," manned by Law and his son, was caught in a sudden storm near the head waters of Lake Huron and tossed on the rocks, the two being rescued by the coast guard crew from a nearby island.

There were 60 families of the island when Law and his son landed from the coast guard boat and were cared for in the homes of the sher- men. There was no school, no library, no church.

"It was then that the seeds of benevolence were sown in the mind and desire of these people to hear something of the outside world and obtain some of its benefits," says Mr. Law.

Today the island has all of these and scores of other communities up and down the Great Lakes from "Pun- der-bug" to the thousand islands, have benefited by the work which Law undertook and he faithfully carried out since then.

Recently he talked to many of the stations simultaneously by radio, like beacons, bearing the old, familiar call of "Grape" Law coming through their wireless instruments.

GULBRANSEN The Player-Piano

A Pledge

Ranking first by a wide margin in the production of player-pianos, it is fitting that Gulbransen give a pledge to our public—

A PLEDGE to foster the restless desire for improvement which has made possible the exceptional music of the Gulbransen.

A PLEDGE to adhere strictly to the Golden Rule principles that have governed all our business relations; this includes our organization, the people from whom we buy—the people to whom we sell.

A PLEDGE to continue branding the price of each Gulbransen in the back, at the factory, for the protection of our customers.

A PLEDGE never to make a Gulbransen and send it out under any other name, thus preserving Gulbransen quality for Gulbransen buyers.

A PLEDGE always to keep bright our ideal of providing exceptional music for all classes of homes, at modest prices.

A PLEDGE that the ease of playing and instant control you enjoy in the Gulbransen will ever be the standard of excellence among all player-pianos.

THESE principles affect the price and the happiness of every family buying a player-piano. The phenomenal sales Gulbransen enjoys show the public's approval of the fairness, sincerity and importance of our creed.

Christmas morning countless Gulbransens will delight families every- where. Will your family be one of these? Play a Gulbransen at our store today—and you will understand fully these things which have brought about the broad sweep of Gulbransen popularity.

Heavy trappings in a dull grayish green mixture, the circular cape in which the designer introduces sleeves by simply glazing the material and inserting them below the well-made shoulders. Wolf forms the huge collar.

THE JACKET OR COAT BLOUSE

Outer Garment is Proving Popular and Eerachess Slightly Upon the Slip-On Style

The jacket or coat blouse is taking very well, and eerachess slightly upon the prestige of the slip-on style. This surprise closed garment, however, needs to be watched, for fear that it may be overdone. Those in matelasse already are everywhere. Safer lies imitations of the same idea, and the designers are evolving new models constantly. This jacket blouse, with the right skirt, makes a good street costume.

The French idea favors the slip-on style, says Dry Goods Economist. Some of the new French blouses are shapeless, straight garments, without gath-ers or band or belt at the hip; but their decoration is marvelous to see, and their finish exquisite.

Velvet is excellent for blouses as for hats and gowns, and metal fabrics promise to be extremely fashionable. Crepes have lost none of their good style. The printed crepes are going rather big, and new patterns on the Persian order make striking blouses. Embroidery, fur, soutache, lace, head-ers, metal ornaments, tinsel, and ribbon share the honors of trimming.

Among the skirts, there is a noticeable tendency toward dressiness. Side-draped skirts with uneven hem are made to velvet crepe. A few cham-bras models are to be distinguished among the throng. The wrap-around style is especially adapted to velvet. In addition to draped and wrap-around models, a good deal of the circular cut is to be seen, occasionally effected by inset godets.

SELECTION OF THE HEADGEAR

Tall and Short and Thin and Stout Women Should Choose Hats to Suit Build.

It cannot be denied that a woman's hat will make or mar her appearance. A tall, full-faced woman almost invariably finds that a hat with a broad brim or one which is wide at the sides will add to the charm of her face and give proportion to her figure.

She should decide on a small hat she should select one which is firm and definite in shape and, if possible, having definite contour of angles.

Women who are disposed to be both short and stout should adopt a small, rather severe type of hat.

For the thin face a soft round hat with a small, curled-up brim, made of flexible material such as velours or ribbon will prove becoming and effective. The hat should not be too big or drawn down on the head, as this gives a flattened-down and dwarfed effect to the whole figure.

Black and white millinery suits women who have good complexions.

Twills for Street Wear. Polished twills for street wear are the dominant note for tailored wear. Some of the frocks have touches of embroidery in gold designs, while scarlet and Persian effects are developed in other models. Fur is used to trim some of the frocks, ermine is consistently used, especially on the black velvets. In the case of brown frocks matching furs are used discreetly for finishing edges at neck and sleeves.

Frock for a Wee Girl. An adorable dress for a small girl is made of apricot-colored handkerchief linen with a white collar edged with Valenciennes lace. Around the bottom and up one side is a fold of white linen set on with seaming. A row of tiny white crocheted buttons and very brief sleeves add to the effect.

At the Theatres

THE SOISSON.

"OATHBOUND," the leading picture today and tomorrow, presents Dustin Farnum in the stellar role. Once more Dustin Farnum has proven that he is an actor of great capabilities. This was made manifest last night at this theatre. The photoplay is a William Fox production, and is a real thriller. Farnum is cast as a millionaire shipwrecked whose vessels are being raided by river pirates. For several months the deprivations have been going on when the owner himself decides to take a hand in the capturing of the crooks. The chase which follows in which two of the speediest motor boats on the Pacific coast engage, is one of the most spectacular scenes ever flashed on the screen here. Kid McCoy, whose right name is Norman Selby, and who was at one time a leading pugilist; Maurice "Reddy" Flynn, who a few years ago was acclaimed one of the greatest of football players; and who has since become a successful screen actor, and Ethel Grey Terry are members of a strong cast supporting the Fox star. Other noteworthy features make the picture one of the best ever presented to local audiences.

Thursday, Friday and Saturday Lorna Doone, an interesting picture will be shown.

THE PARAMOUNT.

"THE SNOWSHOE TRAIL," with Jane Novak in a delightful role, is being shown today.

UNION NATIONAL BANK
Connellsville, Pa.

ing shown today. Based on a novel by Edison Marshall, this most recent P. B. O. picture starring Miss Novak, has to do with the experiences of a beautiful society girl who goes adventuring in the frozen places of the North in search of her fiancé. Her struggles in blizzards and against the other hardships of the snow-bound region develop several thrilling episodes which are calculated to hold the spectator spell-bound—or very close to it.

Miss Novak, always superb in outdoor characterizations, surpasses herself in this picture. Of unusual beauty and appeal, she is fascinating in her fur garments. In the big situations, she rises superbly to emotional heights of talent she possesses. Roy Stewart is equally good as her leading man. Always a rugged virile, upstanding character, he could hardly be improved upon.

Wednesday and Thursday, Shirley Mason will be seen in "The New Teacher."

THE ORPHEUM.

"THE DICTATOR," showing today and tomorrow at this theatre, features Wallace Reid in one of the best roles of his screen career. The scenes of the photoplay are located in Latin-America and deal with a revolution in which Mr. Reid as the hero takes an active and not inglorious part, rising from soldier to commander and winning the heart of an excellent young woman, portrayed by Lila Lee. The picture was admirably produced and the cast generally is of the best. There isn't a dull moment in the picture and it is well worth seeing. For genuine thrills, excitement and laughs, there are few pictures seen here this season that will equal "The Dictator." From start to finish the action is rapid and produced on a massive scale, with superb characterizations and splendid photography, this picture deserves the success that attended its premier here. The story shows how a young American falls in love with the pretty daughter of a South American "dictator." Follows her south and then becomes involved in a revolution of which her father is the instigator, not knowing that his own father, the business king, is on the other side for business and political reasons. He wins the revolution, the girl and his father's profound respect after a series of exciting adventures, which fairly brim with suspense, mystery, conspiracy, fighting and delightful humor.

Thursday Marion Davies will be seen in "Beauty's Worth."
